Psychotherapy			
	90832	90834	90837
Time	16-37	38-52	53+

²Psychotherapy - Add-On			
	90833	90836	90838
Time	16-37	38-52	53+

¹Time-Based Code Assignment: When selecting an E/M code based on time, the documentation requirements are as follows:

- Document total visit time
- State "greater than 50% of total visit time was spent in counseling and/or coordination of care"
- Document details of counseling topics and/or how time was spent coordinating the patient's care

²Assign E/M code FIRST and E/M code assignment CANNOT be time-based when added to the Psychotherapy service.

Initial Psychiatric Diagnostic Evaluation**90791**

Non-medical services include biopsychosocial assessment including: history and mental status. May also include communication with family/others and review/ordering of diagnostic studies.
